Tips for taking pictures

1	Get down on their level
	   ● Eye level
	   ● Get down on the ground if need be

2	Backgrounds
	   ● Plain background
	   ● Pay attention

3	Move in close
	   ● The closer the better, be brave
	   ● Better focus and you can see them better in the picture

4	Focus
	   ● Lock the focus hold the shutter button down halfway until you see the solid green color
	   ● Use two hands to take pictures
	   ● Hold the camera close to your body, use yourself as a tri-pod
	   ● Use something solid as a tri-pod
	   ● Use the self timer

5	Rule of thirds
	   ● Move subject from the center of the picture
	   ● Horizontal side to side
	   ● Vertical top to bottom
	   ● Tic-Tac-Toe grid
	   ● Frame your picture

6	Lighting
	   ● Know your source of light
	   ● Back light
	   ● "Golden time"
	   ● Clouds are not always bad

7	Types of shots
	   ● Cu-close up (head shot)
	   ● MS- Medium shot (Waist Up)
	   ● WS- Wider shot (Whole body/Person)

8	Director vs. Observer ● Plan your shots and be quick about it

- Organizing your picture files
